Delivering World Class Education

KIMEP vision for future

“Since the day we first began working in Almaty, KIMEP has always aspired to become 'world-class' in every aspect of our operations.

In the next three years, KIMEP plans to have an internationally networked campus, with active research, relevant teaching, demanding programs and engaged students.

We must be aware of the historic importance of our task and never forget our founding values which will make this possible. KIMEP is not simply selling education. We are selling a culture. This culture is based on openness, transparency and integrity. Respect and honesty is a prerequisite in all that we do, particularly in our meticulous care for the well-being of students. Our students participate in every major decision in relation to budgets, strategy, capital projects and even student discipline.”

Dr. Chan Young Bang
President of KIMEP
